INFO

Concept

The inspiration for Plastic comes from "Céčka" fever, a phenomenon of collecting C-shaped plastic hooks in the communist Czechoslovakia. Originally manufactured to be hanged as decorative chains in windows and doors (as they can be linked up in chains), the C's spontaneously became a popular toy among the kids growing up in the 1980's. Other letters and geometric shapes were added later. The kids used to collect the C's and create colorful bracelets and necklaces.

Design & Use

Plastic is based on 4 extreme masters: Chain Black, Chain Thin, Simple Black and Simple Thin. The design space is defined by 2 interpolation axes: Gaps "GAPS" and Weight "wght". Based on Gaps axis 2 sub-families are generated: Chain and Simple. Closed letter forms of Chain styles, mostly created of Gaps, literary suggest a hooking of individual letters through a spacial gaps. Round letter shapes are split in the centre of curve to provide a gap for hooking. The exaggerated Gaps and gaps are hidden in Simple styles. Forms get simplified and more legible, therefore the Simple styles are better suitable for small text sizes.
